- 500 GB cloud files · up to 40 users & devices

Plan guide	Launch	Team IT	Operations	AI Partner	AI Leadership
Monthly price	\$199	\$599	\$1,499	\$2,999	\$4,999
Users / devices	5	10	20	25	40
Business mailboxes	5	10	20	25	40
Business website	1 site / 5 pages	1 site / 10 pages	1 site / 10 pages	1 site / 10 pages	1 site / 15 pages
Hosted ERPNext	Included	Included	Included	Included	Included
Cloud file storage	10 GB	25 GB	100 GB	250 GB	500 GB
Technical hours	2	8	20	40	80
Data-entry hours	0	0	10	20	30

Service scope & next steps

Two AI plans. Choose your level of support.

AI Partner builds practical workflows within 40 technical / AI hours plus 20 data-entry hours. AI Leadership adds senior direction, a rolling 90-day roadmap and 80 technical / AI hours plus 30 data-entry hours. Both are fractional monthly services.

What every plan includes

One company, one website, hosted ERPNext, SSL/DNS and a \$25/year domain allowance. Business email on your domain: 5 / 10 / 20 / 25 / 40 mailboxes, 5 GB each. Account setup and device configuration use technical hours. Support by Los Angeles-time appointment (PST/PDT).

ERPNext hosting & file storage

ERPNext runs on managed cloud servers; large files use cloud file storage. File allowances are separate from mailboxes and database storage. Standard ERPNext has no license surcharge. Capacity, backup retention and recovery are scoped at onboarding.

How the monthly service works

IT and ERP work, setup, meetings and testing share technical hours. Higher tiers replace lower limits; data-entry hours are separate. Time is recorded in 15-minute increments; unused hours expire monthly. Complex migrations and custom development need a separate scope.

What is priced separately

On-site work, hardware, Microsoft 365 / Google Workspace, other ERP licenses, paid add-ons, AI usage, extra storage, dedicated infrastructure and major projects. Additional backup services and recovery are separately scoped. Security checks are baseline review, not 24/7 monitoring.

Simple billing. Clear next steps.

Monthly payment in advance; renews until canceled. Cancel before the next renewal; service continues through the paid period. Choose a plan, agree your scope and access, then prioritize the first tasks. More than 40 users? Ask for a custom scope.

Standard setup uses your first-month hours. Extra work is quoted before it starts. No annual commitment. Taxes and third-party licenses may apply.
